

Thank you for purchasing one of our quality Locash Racing products.

Product: OBD Conversion Harness
Model: OBD1 to OBD2a ECU
Part #: OBD1-21

In order to complete the installation of your conversion harness, additional sensors and/or equipment may need to be connected to the subharness.

<u>Color</u>	<u>Function</u>
Black/White	EVAP Bypass Solenoid Valve
Blue/White	Second O2 Sensor Signal
Black/Green	CKF-P
Brown	EVAP Control Canister Vent
Black/Orange	Fuel Tank Pressure
White/Yellow	CKF-M
White/Orange	Second O2 Sensor Power
White/Green	Second O2 Sensor Heater Control
Black	Second O2 Sensor Ground

Installation Notes:

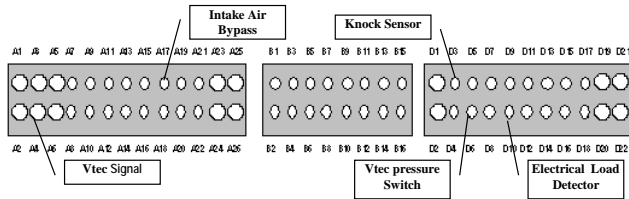

-The oxygen sensor ground and power connections provided are optional, other suitable locations may be used.

IMPORTANT:

-The above connections may not be used in all configurations, JDM ECUs will not require most of the extra sensors.

-Please consult a professional installer in order to avoid serious damage to the vehicles components.

Some applications may need additional connections to the stock wiring harness:

This product is designed for off road use only
